THE FX DIMENSION OF LEGAL PRACTICE

Currency Risk Is in Every Cross-Border File.

Legal professionals handle some of the most time-sensitive, high-value financial transactions in any industry. Settlement payments, retainer transfers, immigration funding, M&A closings, and estate distributions — all carry FX exposure that most firms leave unmanaged. That gap is a risk to your clients, and an opportunity for your practice.

SETTLEMENT & TRUST ACCOUNT TRANSFERS

Cross-border settlements and trust account payments are rate-sensitive and time-critical. A unfavorable rate or a delayed wire on a closing day is more than a financial issue — it's a professional one.

IMMIGRATION & RELOCATION FUNDING

Immigration clients need to move funds internationally — proof of funds, settlement capital, visa deposits. The timing and rate on these transfers can make or break an application.

M&A, CORPORATE & ESTATE TRANSACTIONS

Multi-jurisdictional corporate transactions, cross-border estate distributions, and international M&A closings all carry embedded FX exposure that requires expert management.

FREQUENTLY ASKED QUESTIONS

Questions From Our Partners

Can legal professionals refer clients without triggering regulatory issues?

In most jurisdictions, referring a client to an FX brokerage for currency services is a straightforward business referral and does not constitute the provision of regulated financial advice. We recommend confirming with your law society or professional body, but the vast majority of our legal partners participate without any compliance concerns. FinXtra handles all regulated FX advisory on our end.

How is client confidentiality maintained?

FinXtra operates under strict confidentiality standards on every client engagement. Client information is never shared beyond what is required for KYC/AML compliance. We treat every referral with the same discretion your clients expect from their legal counsel.

How does revenue share work for law firms?

You earn a competitive percentage on the FX spread of every transaction your referred clients make — paid regularly, transparently, and for the lifetime of each client relationship. Full details are outlined in your partner agreement.

What currencies and jurisdictions do you support?

135+ currencies across Canada, the United States, Mexico, the United Kingdom, and beyond. Whether your client is settling in EUR, transferring immigration funds in GBP, or closing a deal in USD — FinXtra has them covered.

How quickly can a referred client get started?

Typically 48–72 hours from introduction to account being opened. For time-sensitive matters — settlement closings, immigration deadlines — we prioritize onboarding and can often move faster. Speak to our team about urgent timelines.

Can FinXtra provide documentation for compliance and trust account purposes?

Yes. Every FX transaction comes with full documentation — trade confirmations, exchange rate records, and transfer receipts — suitable for trust account reporting, file documentation, and regulatory compliance.
