FINANCIAL ADVISOR, FAMILY OFFICE & WEALTH MANAGER PARTNERSHIPS

Your Clients' Wealth Crosses Borders. Their FX Strategy Should Too.

High-net-worth individuals, family offices, and globally diversified portfolios all carry significant currency exposure — in property holdings, foreign investments, international distributions, and cross-border estate planning. Most of that exposure is managed by a bank at a rate that serves the bank, not the client. FinXtra gives financial advisors and wealth managers a dedicated FX partner who changes that — with institutional pricing, tailored strategies, and an advisor your clients can trust. You refer. We advise. You earn.

135+ Currencies | **35+ Collection Accounts** | **FX Contracts up to 5 Years** | **Bespoke Client Advisory**

Serving: Canada · United States · United Kingdom · Mexico

THE FX DIMENSION OF WEALTH MANAGEMENT

Every Global Portfolio Carries Currency Risk. Most of It Is Unmanaged.

Your clients' wealth doesn't sit in one currency. Foreign property, international equities, offshore income, cross-border estate distributions — every one of these carries FX exposure that directly impacts net returns. The question isn't whether currency risk exists. It's whether anyone is actively managing it. With FinXtra, the answer is yes — and that answer comes from you.

EROSION OF RETURNS AT BANK RATES

High-net-worth clients moving significant sums through their bank's FX desk lose 1–3% to institutional margins on every conversion — compounding across multiple transactions and jurisdictions to materially impact real returns.

UNHEDGED PORTFOLIO CURRENCY EXPOSURE

Foreign property values, offshore investment income, and international distributions are all exposed to rate fluctuations. Without a hedging strategy, currency becomes an uncontrolled variable in your client's financial plan.

MULTI-GENERATIONAL WEALTH TRANSFERS

Family offices managing cross-border estate distributions, trust transfers, and inter-generational wealth movements require precision FX execution — rates and timing that a bank's standard process cannot reliably deliver.

WHAT YOUR CLIENTS GET

Institutional FX Strategy — Tailored to Each Client's Wealth Profile.

FinXtra brings institutional-grade FX solutions to your clients — not as a generic payments platform, but as a dedicated advisory relationship built around their specific portfolio, currency exposure, and long-term financial goals. Every client is different. Every FX strategy should be too.

Portfolio-Level FX Hedging

Forward contracts and structured hedging strategies protecting your clients' foreign asset values and income streams — with contracts tailored for up to 5 years out.

135+ Currencies, Institutional Pricing

Access to competitive institutional FX rates across 135+ currencies — significantly tighter than standard bank pricing on every transaction, at every size.

Dedicated Wealth FX Advisor

Every referred client receives a named FinXtra advisor who understands their wealth profile, asset mix, and currency exposure — not a call centre, not a platform. A trusted professional.

Family Office & Estate Distribution

Precision execution for multi-generational wealth transfers, cross-border trust distributions, and estate settlements — with full documentation and complete rate transparency.

International Property FX Management

Rate protection and payment execution for clients with foreign property holdings — purchase, rental income, maintenance payments, and eventual sale proceeds, all managed strategically.

35+ Currency Collection Accounts

Receive and hold client funds in 35+ currencies without forced conversion — preserving optionality on timing, protecting against unfavorable rate environments.

JURISDICTIONS SERVED: **Canada | United States | United Kingdom | Mexico | 135+ currencies worldwide**

THE PARTNER PROGRAM

Refer Once. Strengthen Every Client Relationship That Follows.

The FinXtra Partner Program for financial advisors, family offices, and wealth managers is built to complement your existing practice — adding a layer of FX expertise that deepens your value proposition without adding operational complexity. You identify the need. We deliver the solution. You earn.

01

You Identify

Identify a client with meaningful currency exposure — foreign property, international investments, cross-border distributions, or significant FX transactions. The opportunity already exists in your book.

02

You Refer

Introduce your client to FinXtra with a single email or call. We manage onboarding, KYC, and the full client relationship from there — with the professionalism your clients expect.

03

We Serve

Your client is assigned a dedicated FinXtra FX advisor who builds a currency strategy around their specific portfolio and goals — fully transparent, fully accountable, and reflecting the standards of your practice.

04

You Earn

Receive competitive revenue share on every FX transaction your referred clients make — ongoing, for the lifetime of the relationship. The larger and more active the client, the more you earn.

WHY PARTNER WITH FINXTRA

A Strategic FX Partner — Not a Payments Vendor.

Your clients chose you because you see the whole picture of their financial life. FinXtra gives you the FX dimension of that picture — managed by professionals who operate at the standard your clients expect, and whose performance reflects directly on you.

ENHANCE YOUR VALUE PROPOSITION

The advisor who manages FX risk proactively becomes the advisor clients never leave — and always refer. Adding FinXtra to your offer is one of the highest-ROI enhancements available to a wealth management practice.

SIGNIFICANT INCREMENTAL REVENUE

HNW and UHNW clients transact in size. Revenue share on institutional FX volumes means meaningful incremental income — ongoing, transparent, and growing with your book of business.

YOUR STANDARD. OUR COMMITMENT.

FinXtra operates with the transparency, discretion, and accountability your clients already expect from you. No hidden margins, no surprises, no shortcuts — and full documentation on every transaction.

> *"Several of our family office clients were losing significant sums annually on FX at their private banks — without any hedging strategy in place. FinXtra changed that completely. The savings are material, the reporting is clean, and the advisory relationship has strengthened our clients' confidence in us."*

WHO THIS PROGRAM IS FOR

Built for Advisors Who Serve Globally Active Clients.

FinXtra partners with financial advisors, wealth managers, family offices, and private client practitioners across Canada, the United States, Mexico, and the United Kingdom whose clients have meaningful cross-border financial activity. You may be a strong fit if your clients include:

- High-net-worth individuals with foreign property holdings in the US, UK, Mexico, or Europe
- Family offices managing multi-generational wealth across multiple currencies and jurisdictions
- Investors with foreign equity exposure, offshore income, or international portfolio distributions
- Business owners with cross-border operations, foreign supplier payments, or international revenue
- Retirees or professionals receiving pension, income, or distributions in foreign currencies
- Clients in the process of international relocation, estate planning, or inheritance transfer
- Entrepreneurs selling businesses with international buyers or proceeds in foreign currencies

FREQUENTLY ASKED QUESTIONS

Questions From Our Partners

Does partnering with FinXtra create any regulatory obligations for my practice?

In most jurisdictions, referring clients to an FX brokerage is a standard business referral and does not constitute the provision of regulated investment or financial advice. FinXtra handles all regulated FX advisory and execution independently. We recommend confirming with your compliance team or regulatory body, but the vast majority of our wealth management partners participate without any compliance concerns.

How does revenue share work for wealth managers and family offices?

You earn a competitive percentage on the FX spread of every transaction your referred clients make — paid regularly and transparently, for the lifetime of each client relationship. Given the transaction sizes typical of HNW and UHNW clients, revenue share can be highly meaningful. Full details are outlined in your partner agreement.

Can FinXtra accommodate family office-level transaction volumes and complexity?

Yes. FinXtra is fully equipped to handle the volume, currency diversity, and complexity typical of family office operations — multi-currency collection accounts, structured hedging programs, recurring distribution schedules, and bespoke advisory across multiple beneficiaries and jurisdictions.

What currencies and markets do you cover?

135+ currencies across Canada, the United States, Mexico, the United Kingdom, and beyond. Whether your clients hold assets in EUR, receive income in GBP, or are distributing wealth across multiple jurisdictions — FinXtra has the coverage and expertise to manage it.

How does FinXtra handle confidentiality for high-profile clients?

Every FinXtra client engagement is conducted with strict confidentiality. Client information is handled with the same discretion your practice applies — never shared beyond what is required for KYC/AML compliance, and never used for any purpose beyond delivering the agreed FX services.

How quickly can a referred client get onboarded?

Typically 48–72 hours from introduction to account being opened and ready to transact. For clients with time-sensitive needs — a closing, a distribution deadline, or an urgent transfer — we prioritize onboarding and can often move faster. Speak to our team about specific timelines.
